

# SgtRingLightingTex

This component allows you to generate the SgtRing.LightingTex field.

## Width

The width of the generated texture. A higher value can result in a smoother transition.

## Format

The format of the generated texture.

## FrontPower

How sharp the incoming light scatters forward.

## BackPower

How sharp the incoming light scatters backward.

## BackStrength

The strength of the back scattered light.

## BaseStrength

The of the perpendicular scattered light.
