SgtBeltAsteroid

This stores all information about an asteroid in an SgtBelt___ component.

Temp

Temp instance used when generating the belt.

Variant

The coordinate index in the asteroid texture.

Color

Color tint of this asteroid.

Radius

Radius of this asteroid in local space.

Height

Height of this asteroid's orbit in local space.

Angle

The base roll angle of this asteroid in radians.

Spin

How fast this asteroid rolls in radians per second.

OrbitAngle

The base angle of this asteroid's orbit in radians.

OrbitSpeed

The speed of this asteroid's orbit in radians.

OrbitDistance

The distance of this asteroid's orbit in radians.
